OSINT Academy: Tradecraft Training

OSINT Academy is a private community available to Authentic8 Silo for Research (Toolbox) customers. The Academy offers tradecraft training including computer-based, video and live courses for open source intelligence (OSINT) analysts.

OSINT Academy Tradecraft Training is a world-class, computer-based training program for OSINT professionals. It provides analysts with instructions and best practices on how to incorporate advanced skills and toolsets into their workflows to create efficiencies in the intelligence production cycle.

OSINT Academy Tradecraft Training courses provide analysts with a depth of knowledge that will prepare them for the challenging OSINT environment they face today. Analysts will reduce reliance on third-party tools and focus on creating repeatable success. Our training goes beyond standard OSINT courses, teaching analysts how to leverage raw data and apply AI for tasks such as facial recognition and sentiment analysis.

85 percent of professionals conducting OSINT have received little or no training in OSINT techniques and risk prevention from their current employer, according to a survey conducted by Cybersecurity Insiders. The survey of 338 professionals found that 77 percent aren't receiving recurring OSINT training, and 34 percent don't have any prior experience with OSINT-related research.
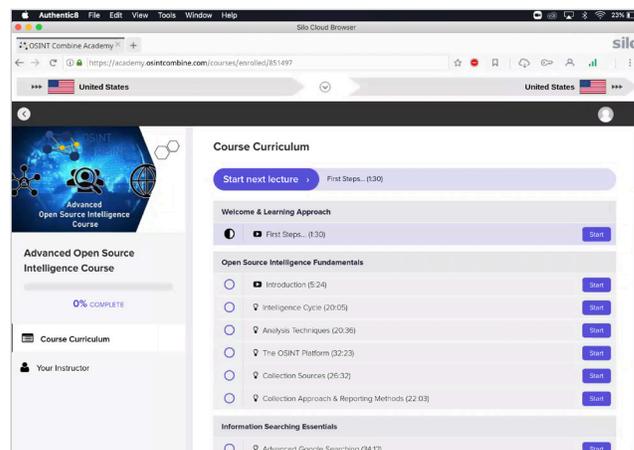

Courseware

Courses are self-paced, on-demand online training. The content will develop an analyst's skill sets from beginner to advanced, starting from fundamental concepts and progressing to highly advanced data-mining techniques and tradecraft.

The content contains videos, presentations, downloadable materials and interactive quizzes. The materials are kept current with frequent updates to techniques and new topical modules.

The curriculum includes more than 40 modules on the following topics:

- Learning Approach Overview
- Open Source Intelligence Fundamentals
- Person of Interest Collection Essentials
- Person of Interest Collection Social Media
- Corporate Profiling
- Area of Interest

- Region Assessment
- Event Monitoring
- Tactics, Techniques & Procedures
- Dark Web
- Cryptocurrency
- Advanced OSINT Techniques

Reporting on Student Progression

Through our training platform, reports on student progression through their OSINT Academy Tradecraft Training coursework are available by PDF to training leads and other leadership periodically.

These reports include:

- **Lecture Completion** - shows the percentages of completion
- **Quiz Scores** - displays information related to students' performance on quizzes

Availability and More Information

OSINT Academy is exclusively available for purchase to current users of Silo for Research (Toolbox). The computer-based training platform is accessible through a user's Silo account. Users will also have access to OSINT Academy and all of the membership benefits included with that program.

Please contact your Authentic8 account executive for pricing and quotes directly, or email sales@authentic8.com. For technical details on training, contact osint-training-security@authentic8.com.

PROTECT THE THINGS YOU CARE ABOUT FROM THE THINGS YOU CANNOT TRUST

Authentic8 enables anyone, anywhere, on any device to experience the web without risk. The Silo Web Isolation Platform by Authentic8 separates the things you care about like apps, data and devices, from the things you cannot trust like public websites, external users and unmanaged devices. Silo executes all web code in a secure, isolated environment that is managed by policy, to provide protection and oversight.

Today, the world's most at-risk organizations rely on Silo to deliver trust where it otherwise cannot be guaranteed.
