OSINT TRAINING
By Authentic8

OSINT Academy: Tradecraft Training

OSINT Academy is a private community available to Authentic8 Silo for Research (Toolbox) customers. The Academy includes OSINT Tradecraft Training, OSINT Insiders video and live discussions for OSINT analysts, and OSINT Peer Forums (coming soon).

OSINT Tradecraft Training (T2) is a world-class, computer-based training program for Open Source Intelligence professionals. T2 provides analysts with instructions and best practices on how to incorporate advanced skills and toolsets into their workflows to create efficiencies in the intelligence production cycle.

85% of professionals conducting OSINT have received little or no training in OSINT techniques and risk prevention from their current employer, according to a survey conducted by Cybersecurity Insiders, The survey of 338 professionals found that 77% are not receiving recurring OSINT training or certification, and 34% don't have any prior experience with OSINT-related research.

T2 courses provide analysts with a depth of knowledge that will prepare them for the challenging OSINT environment they face today. Analysts will reduce reliance on third-party tools, and focus on creating repeatable success. Our training goes beyond standard OSINT courses, teaching analysts how to leverage raw data and apply AI for tasks such as facial recognition and sentiment analysis.
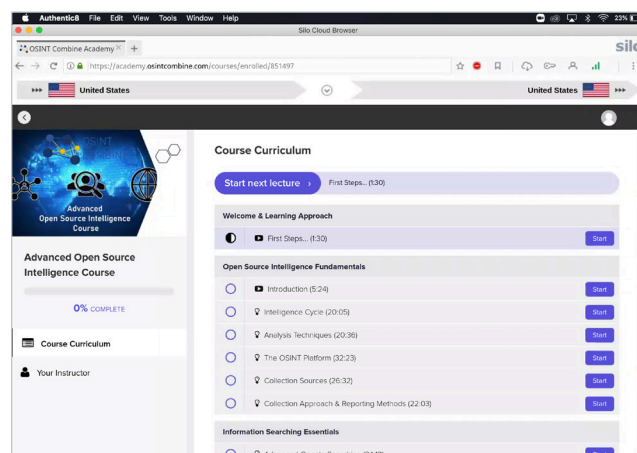

Courseware

T2 courses are self-paced, on-demand online training. The content will develop an analyst's skillsets from beginner to advanced, starting from fundamental concepts and progressing to highly advanced data mining techniques and tradecraft.

The content contains videos, presentations, downloadable materials, and interactive quizzes. The materials are kept current with frequent updates to techniques and new topical modules.

Curriculum includes 40+ modules on the following topics:

- Learning Approach Overview
- Open Source Intelligence Fundamentals
- Person of Interest Collection Essentials
- Person of Interest Collection Social Media
- Corporate Profiling
- Area of Interest

- Region Assessment
- Event Monitoring
- Tactics, Techniques & Procedures
- Dark Web
- Cryptocurrency
- Advanced OSINT Techniques

Upon successful completion of the OSINT Academy T2 curriculum, students will receive a Certificate of OSINT Competency from Authentic8 certifying the number of hours in the platform and content covered.
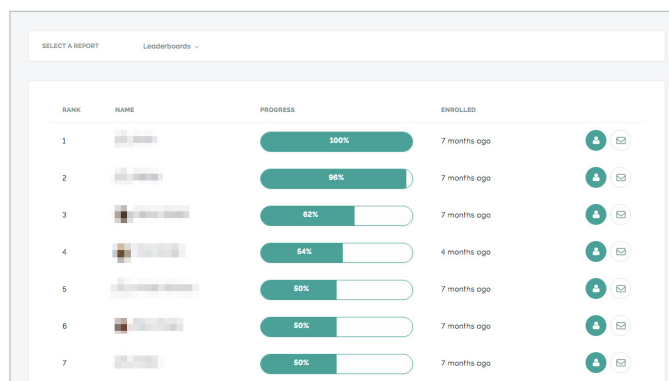

Reporting on Student Progression

Through our training platform, reports on student progression through their T2 coursework are available by PDF to training leads and other leadership periodically.

These reports will include:

- **Lecture Completion** - shows the percentages of completion
- **Quiz Scores** - displays information related to students' performance on quizzes
- **Leader Boards** - displays a list of the course's students organized and ranked by completion level
- **Video Engagement** - displays information about the overall engagement of videos in all courses

Availability and More Information

T2 is exclusively available for purchase to current users of Silo for Research (Toolbox). The computer-based training platform is accessible through a user's Silo account. Users will also have access to OSINT Academy and all of the membership benefits included with that program: OSINT Insiders and OSINT Peer Forums (coming soon).

Please contact your Authentic8 Account Executive for pricing and quotes directly, or email sales@authentic8.com. For technical details on training, contact OSINT@authentic8.com.
