

Silo for Research

Secure and Anonymous Online Investigations

Silo for Research (Toolbox) is a secure and anonymous web browsing solution that enables users to conduct research, collect evidence and analyze data across the open, deep and dark web.

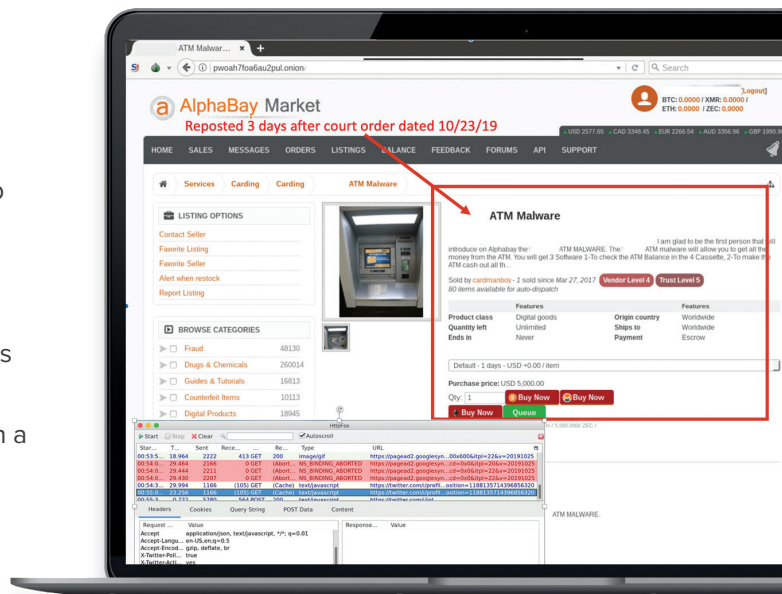

Silo for Research is built on Authentic8's patented, cloud-based Silo Web Isolation Platform, which executes all web code in a secure, isolated environment that is managed by policy, providing protection and oversight of all web-based activity.

Research teams can accomplish their goals without introducing risk to the organization or revealing intent. All web activity is logged and encrypted so compliance teams can be sure that the tools are being used appropriately.

The world's most at-risk enterprises and government agencies rely on Silo for Research to conduct secure and anonymous online investigations:

- **Criminal investigations:** Comply with chain-of-custody policy and securely collect evidence on the open, deep, or dark web
- **Cyber threat intelligence:** Access and analyze suspicious or malicious content with 100% isolation from corporate infrastructure
- **Financial investigations:** Keep your online fraud investigations anonymous and secure, even on the dark web
- **Open-source intelligence (OSINT):** Disguise your identity with a managed attribution platform and global egress network

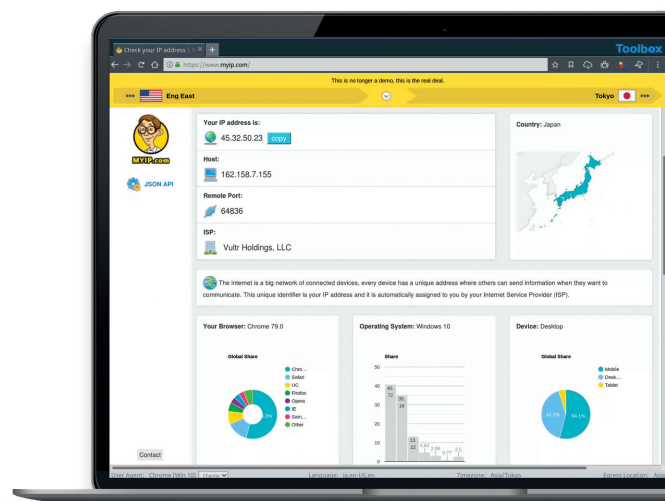

Features and Benefits

Features	Benefits

PROTECT THE THINGS YOU CARE ABOUT FROM THE THINGS YOU CANNOT TRUST

Authentic8 enables anyone, anywhere, on any device to experience the web without risk. The Silo Web Isolation Platform by Authentic8 separates the things you care about like apps, data and devices, from the things you cannot trust like public websites, external users and unmanaged devices. Silo executes all web code in a secure, isolated environment that is managed by policy, to provide protection and oversight.

Today, the world's most at-risk organizations rely on Silo to deliver trust where it otherwise cannot be guaranteed.
